

Year 4 – Keep Smiling Fry Class 😊

Please see a list of activities you could do at home while school is closed. In the table below you will find 3 weeks of activities for the first half of the term. The Summer Term Topic is **Volcanoes**. I think it's important for us to say that these are just a list of ideas for you to dip in and out of and are here to direct you to ideas that we would have covered in the classroom. Please don't feel pressured to complete them all. It is up to you what activities you do. It might be that you use the below weeks and carry out the tasks over the Summer Term. You could tick which ones you have completed and come back to the other activities at a later date. Don't forget you can also use the following websites:
